

YoungEyes@NNAB – Summer 2011

The Mini Club meets in The Bradbury Activity Centre!!

We are thrilled to be able to host this club for primary school vision-impaired children, which is organised by Children's Services Sensory Support (Education). The children came from schools across Norfolk and met together to make friends, learn specialist skills and support each other. The children, their Teachers and Teaching Assistants used rooms in The Bradbury Centre for activities including cooking, braille, craft work, playing games. These activities are designed to promote independence and specialist learning in a relaxed and supportive environment. We are delighted that they are with us again this month.

The group wearing their blindfolds ready for goal ball action and playing board games whilst enjoying each others company.

C2read

This is a service offered at NNAB by two qualified and experienced education consultants. They can assess functional vision and provide advice on dealing with visual stress/pattern glare (known as Meares-Irlen Syndrome) a term which is used to describe a number of symptoms which make reading difficult and often unpleasant. Customised visual assessments, reports and advice to support education and work can be provided.
